

How to Make a Mosaic

SUPPLIES YOU'LL NEED:

- A large piece of paper
- Different-colored construction paper, tissue paper, or pages from an old magazine
- A glue stick

STEPS:

1. Use your imagination to draw a cool scene on the large piece of paper.
2. Rip the colorful construction paper, tissue paper, or old magazine pages into very small pieces—like the size of a dime or quarter. Make piles of different colors.
3. With a glue stick, add glue to your drawing. Stick on different colors of ripped paper to complete the scene.
4. Watch your mosaic take shape!

Ideas of what to create for your mosaic:

- ★ Animals in a jungle
- ★ Fish under the sea
- ★ Your favorite trucks
- ★ Shapes of different sizes

How to Watch a Vegetable Drink

SUPPLIES YOU'LL NEED:

- Paper cups
- Water
- Food coloring
- Celery stalks with leaves still attached
- A small tray or takeout container topA marker

STEPS:

1. Fill the cups less than halfway with water. Drip in your choice of food coloring—only about two drops per cup.
2. Snap the bottoms off the celery. Place one celery stalk in each cup of colored water. Stir.
3. Draw a line with your marker on the outside of each cup to indicate the water level.
4. Put the cups onto the tray and place the tray on or near a windowsill in the sun. Let it sit there all day and overnight.
5. The next day look at the stalks and leaves. Do you see any new colors? Also check the water level—did it get lower?
6. Snap a piece of your celery in half or peel off the outer layer. Can you see the lines of color?
7. You just saw a celery plant sip water all the way to its leaves! Awesome!
