AUTHOR DANICA MCKELLAR

Dear Reader,

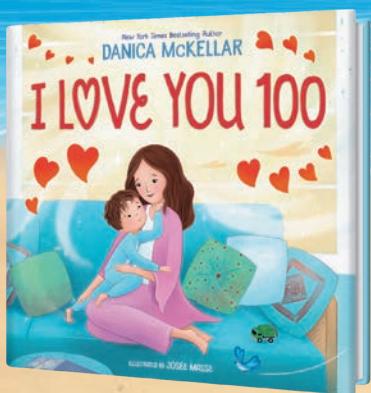

There is no number that could measure all the love a parent has for their child.

Actress, math whiz, and *New York Times* bestselling author Danica McKellar teaches kids how to count to 100 in her newest math-focused picture book full of unconditional love.

Math can be scary for little ones. Let this story and these fun activities foster a love of numbers and an everlasting confidence in math.

Happy counting!

Your friends,

MATCH THE PICTURES TOGETHER!

When using sharp objects,
get help from an adult!

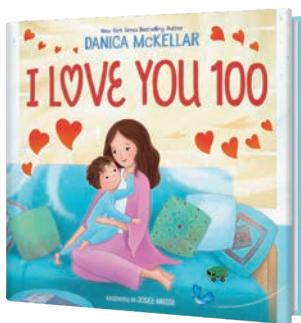

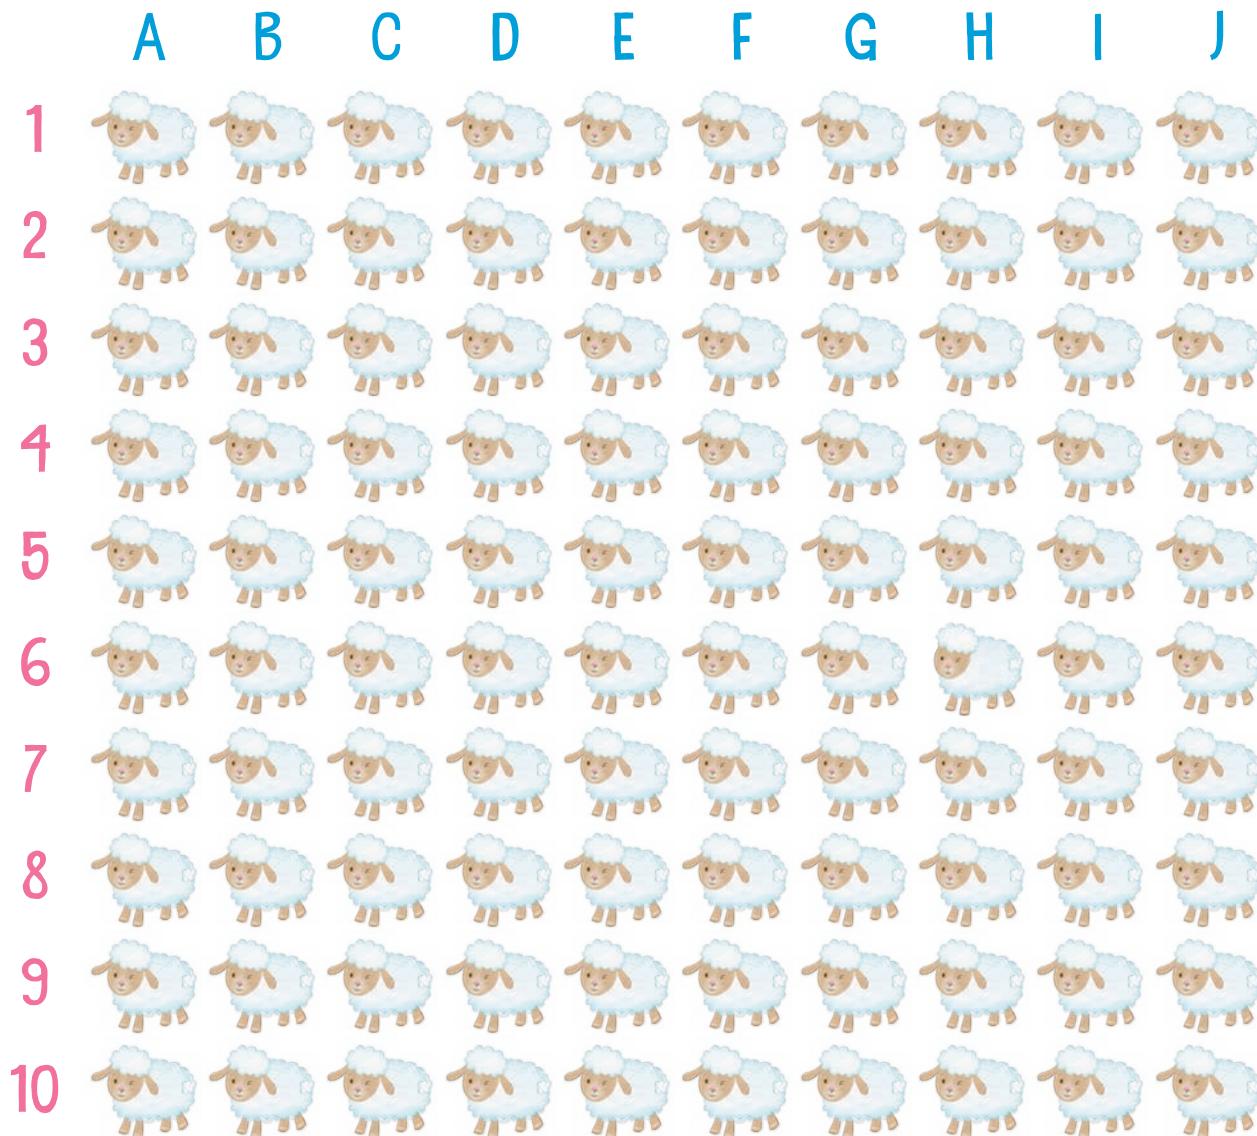

Cut out each box along the dotted lines. Mix up all the individual cards and spread them out face down in rows. Grab a friend and take turns flipping over cards one by one until you find a match. Count how many you found. The person with the most matches wins!

SPOT THE DIFFERENCE!

One of these sheep is not like the others.... Circle the sheep that looks different!

Can you count all of the sheep on this page? Use the counting chart at the end of the book to help!

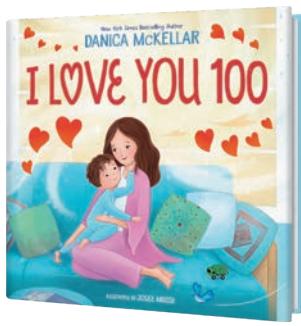

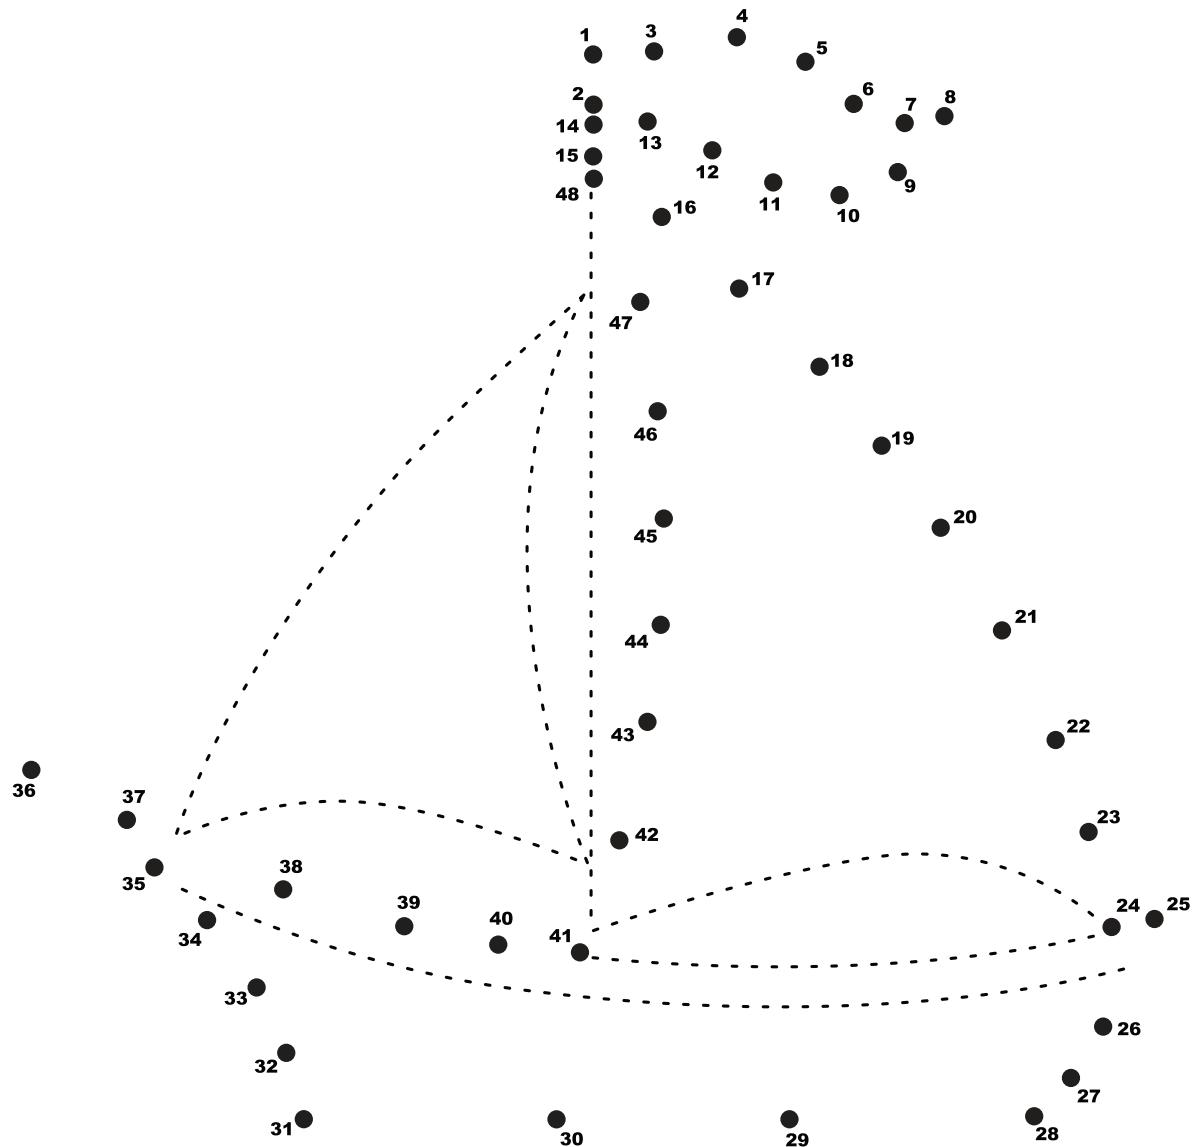

How many sheep? _____

Answer key: Different sheep: Column H, row 6. Number of sheep: 100

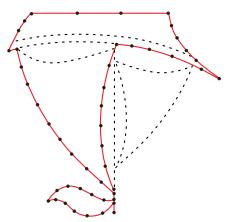

CONNECT THE DOTS!

Connect the dots to create a picture!

What do you see?

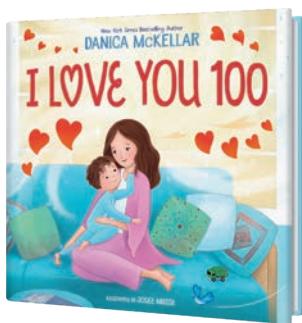

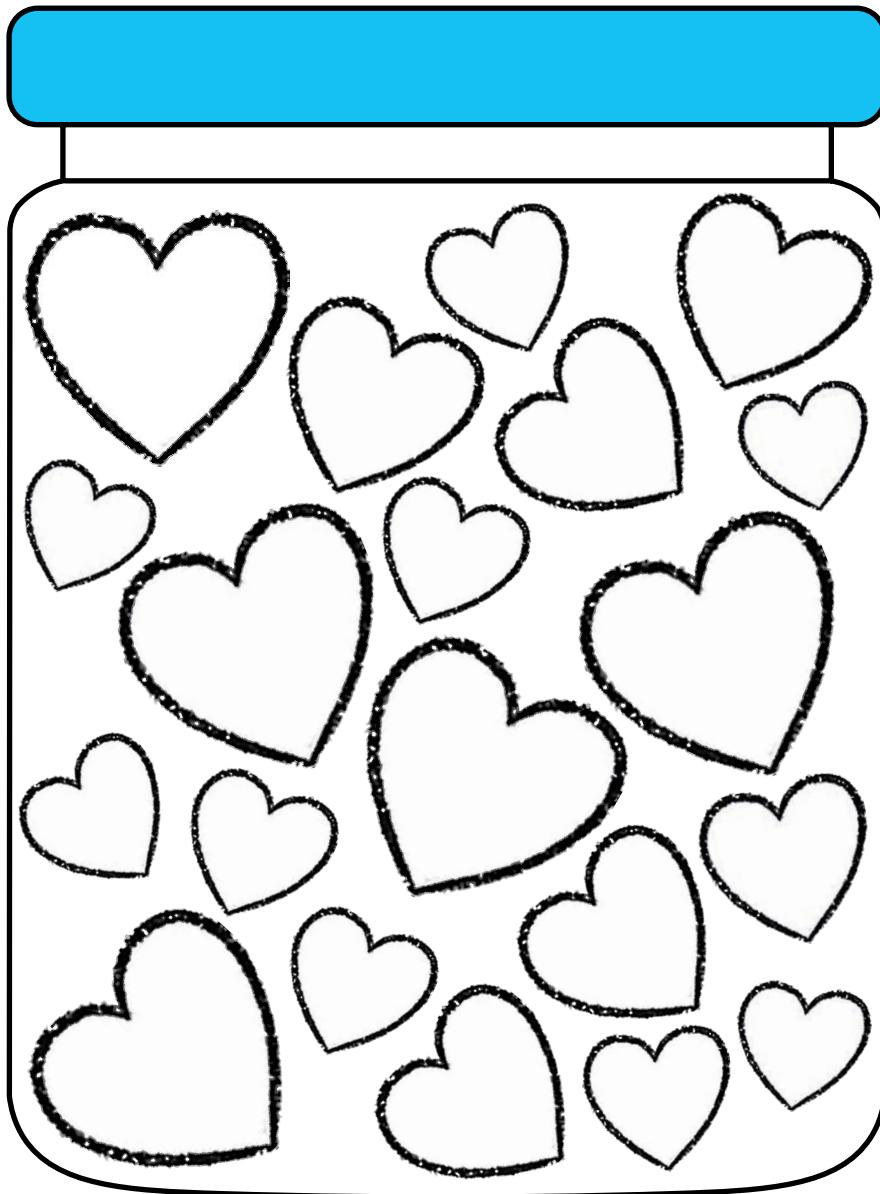

Answer Key:

COLOR IN THE HEARTS!

Grab your markers and color the hearts in this jar!

Can you count how many hearts there are?

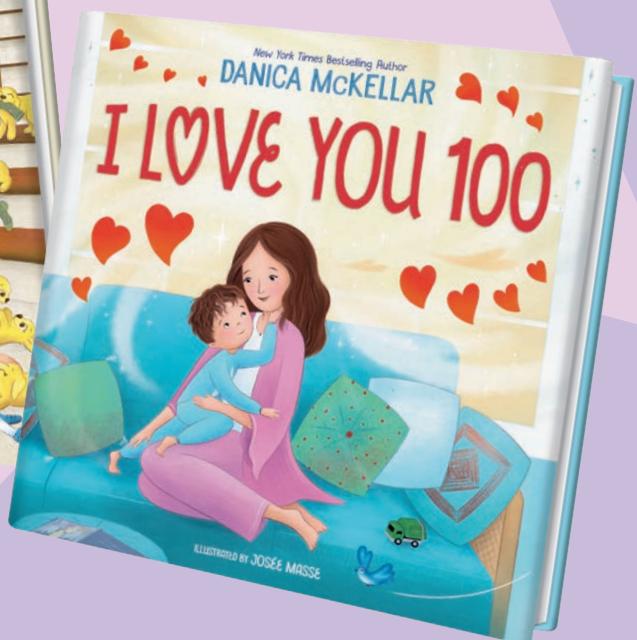

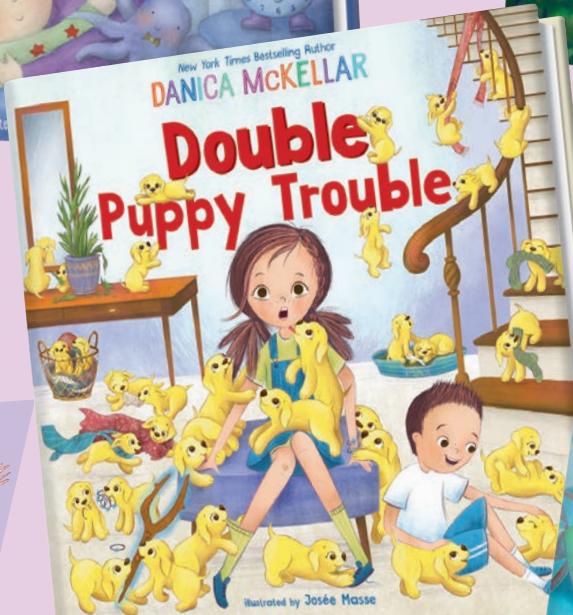

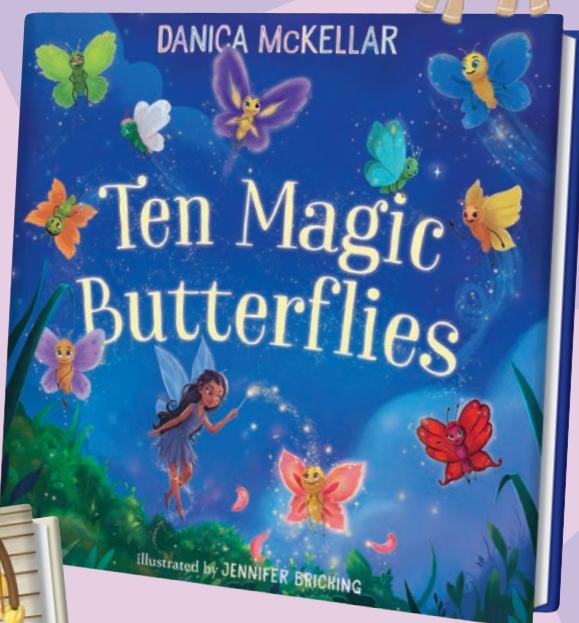

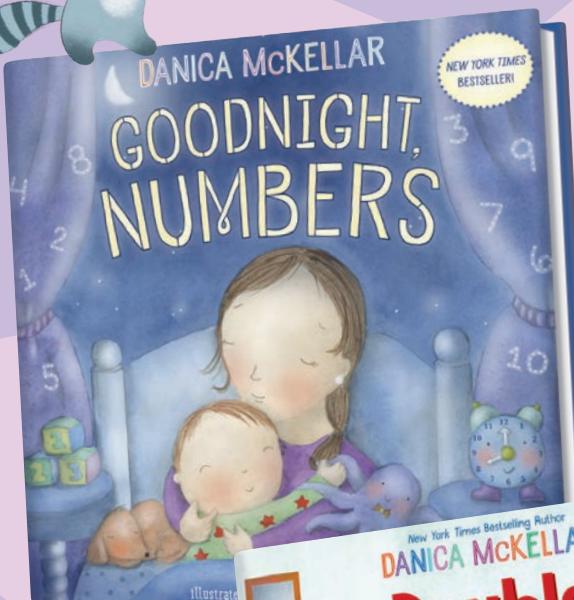

How many hearts
are in the jar? _____

Answer Key: 20 hearts
